Course Objective

Material Covered:

An introduction to general pediatric radiology and the appropriate selection and evaluation of radiographic studies of children.

Skills Acquired:

Basic pattern recognition in pediatric imaging.

Activities Of Elective

Number Of New Patients/Student/Week: Not Applicable

Responsibilities Of Student For Assigned Patients:

- Does history/physical: No
- Follows patients, with appropriate notes as needed: No (clinical correlation on selected patients)
- Does student see ambulatory patients: No

Procedures

Scheduled Duties of Student:

- Frequency of rounds on patients: Monday - Friday
- Presents patients to preceptor or attending physician: No
- Weekly schedule of required teaching sessions:
  - 8:00am M-F Daily film interpretation and/or GI, GU, US, CT procedures
  - Noon-1:00pm M-F Radiology or Pediatric Departmental Conferences

Describe Optional Rounds And Activities, If Any:

2nd Wed., 8:00 a.m., Radiology, Urology, Nephrology
3rd Wed., 4-5 p.m. Pediatric Surgery, X-ray
Thursday, 8:00 A.M. Pedi Radiology Conference

Other Required Activities:

- Reading/review of current literature: Yes
- Writing or Presenting a paper: No; select one interesting case and create presentation on the topic

How Is Student Evaluated:

Based on informal case presentations, attendance and motivation

Who Evaluates Students:

Drs. Susan John, Lawrence Robinson, Susan Greenfield, Jennifer Johnston

Unique Features Of This Elective:

Clinic-radiologic correlation is encouraged. All medical imaging modalities in our department will be included and their relative merits discussed. Logical and practical approaches to imaging of common pediatric problems will be stressed.
