PEDIATRIC RESEARCH SEMINAR SERIES

There will not be a PRC Seminar in December but it will return January 16, 2015!

GRANTS 101 CLASS

Grants 101 is two half-day sessions (7 hours total) that provide an overview of the process of preparing and submitting a grant application from UTHealth. The goal is to provide an overview of the grants process including what is necessary to submit a grant through UTHealth and the process by which the grant is processed and reviewed by funding agencies after it leaves the institution.

The sessions are open to all employees. Please visit http://www.uthouston.edu/midp/ for more information.
