 - a. BCM Transition Conference: Date TBD (Thursday – Friday); Houston, TX
OR
 - b. Texas Transition Conference: Date TBD (Thursday - Friday); Dallas, TX
9. Developmental Screening events
 - a. Two Saturdays during LEND Year

LoneStar LEND Program Requirements

The mission of the LoneStar LEND Program is to create leaders in the field of Autism Spectrum Disorder and other Neurodevelopmental Disabilities (ASD/DD), utilizing an interdisciplinary training model focused on cultural competence and evidence-based practice. During their 10 month appointment, each LEND Trainee will complete a total of 600+ hours of training and learning activities including:

- LEND Didactic Seminars
- Leadership and Cultural Competence Training
- Clinical Practicum
- Conference Participation
- Families as Teachers Program
- Service Learning Project
- Additional LEND activities including leadership readings & reflections, outreach, etc.

LEND Didactic Seminars and Leadership/Cultural Competence Training

Mandatory sessions will be held on Fridays throughout your LEND appointment. For a sample of the previous year's didactic seminar calendar, visit www.LoneStarLEND.org.

These sessions will occur mainly at the UTHealth University Center Tower, 7000 Fannin; however some may be scheduled at the McGovern Medical School, 6431 Fannin or the UTHealth School of Nursing (SON), 6901 Bertner. Four ninety-minute sessions are scheduled each day. Training sessions will include:

- LEND Orientation August (exact date TBD)
- Didactic Seminars
- Leadership and Cultural Competency Curriculum (held on a Friday/Saturday)
- Families as Teachers, Research and Clinical Review Sessions
- Team Building and Group Projects
- Leadership Readings and Book Club Discussions

Attendance at the seminars is required. A limited number of absences are allowed for professional conflicts or illness. Please review the attached attendance policy.

Clinical Practicum

Trainees will participate in a wide variety of clinic and community observational experiences. A total of 25 clinical rotations must be completed within the LEND year; each rotation spans between 4-8 hours. Trainees are responsible for contacting clinics to schedule observations and will keep a log of observational experiences for review by the Training Coordinator at periodic clinical review sessions.

Conference Participation

All Trainees will attend the annual LoneStar LEND conference held in the early Spring (exact date TBD). Trainees are also required to attend either the Texas Transition Conference, or the Baylor Chronic Illness Conference. Additionally, funds will be provided for Trainees to attend at least one additional conference (from a group of selected conferences) or professional development opportunity during the program year.

Families as Teachers Program

Each Trainee will be paired with a mentor family of a child with an ASD/ND to provide an opportunity for Trainees to experience a family's viewpoint into the process of diagnosis, treatment, and day-to-day life with ASD/ND. Trainees will schedule a minimum of two encounters with their assigned mentor family prior to April 30th. In addition, Trainees will attend two parent panels where a variety of disabilities and ethnic backgrounds will be represented. These interactive panels will be moderated by the LEND Family Faculty members and will expose Trainees to a variety of ASD/ND topics from the families' perspectives. Upon completion of the Families as Teachers Program, Trainees will participate in a wrap-up session where each Trainee reflects upon the experience through a brief presentation to faculty and their peers. The presentation will focus on how system and service availability and/or gaps were highlighted by the families' experiences and ideas for services to fill those gaps. The Trainee will also highlight how they were most impacted by the family practicum experience and how they anticipate this will affect their practice in the future.

Service Learning Project

During the course of the LEND year, each trainee pursues an area of particular personal interest through the Service Learning Project. Conceptualized and completed in interdisciplinary groups of 3 - 4 Trainees, the Service Learning Project will provide multiple opportunities for trainees to experience issues they will face in practice such as accountability, outcome-based approaches, family-centered models, collaboration, and interdisciplinary decision-making. Each of these components offers opportunities for trainees to enhance and strengthen their leadership skills. Trainee groups will present their leadership project at the conclusion of their program (date TBD). The Service Learning Project should focus on an issue in the field of disability/special health care needs and systems change. Each project will result in production of a product (brochure, web page, article, instructional video, etc.).

The Service Learning Project is an opportunity to integrate relevant material from LEND seminars and take away a broader perspective of working with an interdisciplinary team.

In addition to the scheduled seminar sessions, Trainees can expect to spend an average of 8-12 hours per week on LEND activities such as clinical practicum, family practicum and other LEND activities, assignments, and projects. |

Advocate Trainee Application Questions

Directions: Please answer each question below. Your answers can be as long or as short as you choose. Answers should be typed and attached to the application packet for final submission.

1. A large part of the LoneStar LEND initiative are the didactic seminars that take place throughout the day on Friday's from 9:00am – 4:45pm. There are typically four per day, each lasting 90 minutes. Would you be able to attend these seminars, based on your schedule?
2. Tell us a bit about yourself. This can include country of origin, hobbies, family life, achievements, etc.
3. Please explain why you have an interest in applying for the LoneStar LEND Program. How do you feel this program will be of benefit to you? What are your expectations?
4. As a LEND trainee what strengths would you bring to the program? What do you anticipate as potential challenges?
5. What aspect of the LoneStar LEND program is of most interest to you? Why?
6. What history do you have acting as an advocate for yourself?
7. What is one of the most formidable challenges you have faced in your adult life with your diagnosis? How have you handled it?
8. The LoneStar LEND program is designed to support the development of leadership skills that will assist participants to be effectively engaged in positive social change for people with disabilities. What do you believe are the characteristics of an effective leader? Tell us about any opportunities you have had to be a leader. What skills did you use? And what have you experienced as barriers to effective leadership?
9. How would you hope to use the things learned as a LEND trainee in your life moving forward?
10. How did you hear about the LoneStar LEND program?
11. Is there any other information about yourself that you would like to share with us?

An interdisciplinary collaboration among:

University of Texas Health Science Center at Houston (UTHealth),
University of Houston,
Texas Woman's University,
University of Houston Clear Lake, and
Baylor College of Medicine

Dear Employer,

_____ has submitted an application to the *LoneStar Leadership Education in Autism and other Neurodevelopmental Disorders [L.E.N.D.] Training Program* for the academic year September 2019 through June 2020.

There are currently 52 LEND programs located in 44 US states, with an additional six states and three territories reached through program partnerships. Collectively, they form a national network that works together to address national issues of importance to children with special health care needs and their families. While each LEND program is unique, with its own focus and expertise, they all provide interdisciplinary training, have faculty and trainees in the 16 Maternal-Child Health disciplines, and include family members and individuals with disabilities as paid program participants.

Before we can finalize this application, we need assurance that this trainee will have the appropriate time to successfully perform the components of the LEND training, which include the following:

- Weekly didactic seminars scheduled on Fridays from 9am to 5pm;
- 26 Clinical observations scheduled in half-day time slots by the trainee during variable weekday business hours;
- Service Learning Project for which the applicant must meet with his/her fellow trainees to complete, either during regular business hours or after hours, depending on the trainee group and the specific Project;
- Attendance at either the Baylor College of Medicine Chronic Illness and Disability Conference in October 2019 (exact date TBA) or the Texas Transition Conference in February 2020 (exact date TBA);
- Attendance at one additional national or local conference occurring during typical business hours over several days.

Your signature below attests to your agreement with the time requirements for successful completion of the LoneStar LEND. If you do not agree, kindly inform us by email to Prisca.Franklin@uth.tmc.edu in addition to informing the applicant.

Thank you for your time and consideration.
