IS YOUR CHILD MOODY?

UTCEMD is currently enrolling children and adolescents, ages 6-17, experiencing mood swings or depression. We are also recruiting children who have a parent suffering from Bipolar Disorder. The study can be completed in two visits and includes a diagnostic interview and neuropsychological testing.

If you are interested in participating or would like to know more about the study, please call

713-486-2627.

The risks and benefits of participation will be discussed with you, and you may be compensated for your time.
