# DII Updates - Coronavirus

**March 24, 2020**  
**COVID 19 update**

## Stay Home, Work Safe Order

The Stay Home, Work Safe order will go into effect at midnight tonight and will last through April 3. It includes provisions for businesses [deemed critical by the Department of Homeland Security](#), including health care and public health, to remain open and operational, and for individuals to leave their homes for essential activities including grocery shopping and medical visits. UTHHealth is reviewing the details of this order, but at this time we do not anticipate making any changes to the policies already in place at our university. The onsite scheduled radiology shifts are still in effect. Staff should continue to follow their area's respective schedule for onsite and remote work.
